

NAMEPLATE DETAIL PRESSES

SYSTEM FEATURES

- **Easy-To-Use.**
It's so simple, anyone can master the four-step operation in a few minutes.
- **Smooth Performance.**
Schmidt Nameplate Detail Presses can be operated comfortably in either a sitting or standing position.
- **High Production.**
Customers report marking more than one hundred 16-character nameplates per hour. Distortion is virtually eliminated.
- **Flexible Operation.**
Choose from two models depending on the size of the nameplates to be marked.
- **Character Spacing.**
Each letter or figure character occupies a space as wide as it is high.

MODEL 4

MODEL 6

Every nameplate you mark says something about your products...and about your company. You will be proud of nameplates marked with Schmidt Nameplate Presses. They are always easy to read with details accurately aligned...evenly spaced...and uniformly deep.

Best of all, this kind of quality can actually cost far less than marking nameplates with tedious, troublesome, inaccurate, hand-stamping methods.

So, consider the advantages of the versatile Schmidt Nameplate Detail Press compared to your current marking system.
